#### LOCKE & LOPER,

Of WICHITA SHOE PARLOR, 157 N. Main, Corner First.

COTTONWOOD FALLS, Kan., April 27.—
For some time past A. C. Cox, a prominent ice man of Strong City, had been threatened by N. A. Dobbins, deputy sheriff of this county, because of Cox's alleged improper relations with Mrs. Dobbins. Last night after the Republican primaries the two met on the road near Dobbins' house. No witnesses heard what passed, but Dobbins drew his revolver and as Coxstarted to run, fired twice, the second shot entering the right nip and passing into the body.

Dobbins then went down the street and informed a passerby that he had killed Cox. In the meantime the latter had managed to drag himself to a neighboring house

and get assistance.

Neither Dobbins nor Cox will make any statement, and as yet Dobbins has not been arrested. Both were prominent, and the shooting caused the greatest excite-

GUTHRIE, Ok., April 27.—The biggest meeting that was ever held in open air to elect officers was held at this place last evening between the hours of three and eight o'clock. After a lengthy discussion of different subjects there were three men put before the convention for mayor, Senator Kelly of Kansas, Hill of Oregon, Hoggart of Dakoto. Just at sunset there was a motion made to have the supporters of each candidate form a line and of all the excitement yet in Guthrie, this ran the highest. The sore throats are numerous this morning from the loud yelling last evening. The vast multitude of people in forming the lines went five in breast and were counted by tallymen appointed by chairman of meeting. The vote was in favor of Hoggart when at eight o'clock there was a motion of adjourn-

Kelly had the biggest support of any man before the meeting, until a great many found out he was kansas man and were foolish enough to think if he was elected there would be strictly Kansas rules and regulations, and at once the whoop went up, "we don't want any prohibition in ours." Each candidate for mayor have made long and good speeches since the work has been in progress to organize the city, and have made many warm friends which they very enthusiastically are supporting. The meeting will be called to order this morning at 9 o'clock, when they will proceed to finish the work of electing city officers, and that of electing a mayor will be of great interest. The supposition is that Hill will get there. P. D. Cunningham, J. W. McNeal, of Medicine Lodge, and J. T. Frost, of Mt. Hope, and many other Kansas boys, are among the sore throat crowd. This morning Cunningham seemed so loyal that at times he had his hat, coat, vest off and his sleeves rolled up hallowing. "This way for help. For just about two hours this was continued.

#### ITEMS FROM TOPEKA.

Topexa, Kan., April 27.—Governor Humphrey todav pardoned G. Cheautean of Montgomery county, convicted of grand larceny for stealing a horse and sent up for four years. The board of pardons stated that while he was of good family he mar-ried into a low and thieving family in Mis-souri, who gradually led him into crime. His father was formerly a physician in Alabama, but claimed to have been driven out by the kuklux for his loyalty and was appointed to a position in Washington in 1870, but later became a resident of illinois, where his mind recently gave way under the burden of his son's crime, while the son brooding over the result of his crime, is also thought to be fast losing his mind. William Stackhouse, of Ellis county, convicted of murder in the second degree and sentenced to twelve years in the penitentiary, was also pardoned. In a land dispute in Ellis county in 1879, Samuel Klople was shot and killed. William and Charles Stackhouse and their mother and L. R. Wilcox were arrested, charged with the murder, and William was convicted. At the time of the arrest he was carrying a revolving rifle and one barrel was empty, and notwithstanding the fact the ball in kipple's brain was only about half the size of those in the rifle the two bullets were thought one by the jury. At this late day, when the sentence is well nigh served, It transpires that William was not the one who fired the fatal shot.

The only charter filed with the secretary of state today was that of the Brunnwick hotels or other buildings, and leasing and operating them.
